

Contractor UPDATE

July 22
No: 202209

Bauder JFRI Upstand Board

Bauder XPS Upstand Board

Bauder JFRI Upstand Board

Discontinuation of Product

The limited stocks of this product have now been exhausted and therefore the **Bauder JFRI Upstand Board** is no longer available.

Bauder JFRI Upstand Board Update

In September 2021, I informed you that our suppliers were to cease the manufacturing of their **Bauder JFRI Upstand Board**. The stocks of this board have now run out which ultimately completes the discontinuation process.

Bauder XPS Upstand Board will be substituted for existing specifications that currently state **Bauder JFRI Upstand Board**.

Any orders received in the future for Polystyrene Upstand Boards will be fulfilled using our **Bauder XPS Upstand Board**.

The Product Data Sheet for this product can be found at:

<https://www.bauder.co.uk/technical-centre/products/insulation-products/bauder-xps-upstand-insulation>

If this causes issues, please contact myself or your **Bauder ATM** for further information.

If a non-combustible upstand board is required we suggest that you use our BauderROCK NC Upstand Board. The Product Data Sheet is available at:

<https://www.bauder.co.uk/technical-centre/products/insulation-products/bauderrock-nc-56mm-upstand-insulation>

Hopefully this has covered off most questions, however if you do have any outstanding, please do not hesitate to contact me.
