

Contractor UPDATE

February 2026

No: 202615

Bauder Outlets —Naming

For ease when specifying/ordering and to aid our contractors and clients, we have reviewed the naming of the Blue Roof Outlets, removing 'Blue Roof' from the name, as this has caused some confusion.

We have also renamed our overflow to a tell-tale to reflect the recommendations of BS 6229.

Why have we done this?

We have realised having one product with two names (Blue Roof) added, can cause confusion when specifying and/or ordering. Therefore, we have removed the words 'Blue Roof' from the products affected, and added text into the product TDS and price list to state they can also be used in a Blue Roof.

We have also renamed one of our overflows to 'tell-tale' to give a truer reflection of what it is designed for and follow the recommendations of BS 6229.

When does this come into effect?

With immediate effect.

Which products does this affect and what is the new name?

Previous name: Bauder Bitumen Vertical Blue Roof Outlet DN 70

New name: Bauder Bitumen Vertical Outlet DN 70

Previous name: Bauder Hot Melt Blue Roof Compact Outlet DN 70 Inc. Clamping Ring

New name: Bauder Hot Melt Compact Outlet DN 70 Inc. Clamping Ring

Previous name: Bauder Parapet Emergency Overflow Stainless Steel DN 70

New name: Bauder Parapet Tell-Tale Overflow Stainless Steel DN 70

Specifications and Pricing?

There will be no change to existing specifications.

Please refer to the latest version of the price list and TDS for the most up to date product naming/pricing.

If you have any questions, please do not hesitate to contact us.
