BAUDER PRICE INCREASE NOTIFICATION—BauderSOLAR system

Due to increased raw material, transport, and energy costs we are writing to you with notification of an approximate 15% price increase on our BauderSOLAR mounting system components.

This price increase will be applicable for all orders delivered on or after 01.07.2022

Please contact the relevant BauderSOLAR sales manager for revised quotations where required.

This price increase is applicable to our BauderSOLAR mounting system only and does not affect pricing of our BioSOLAR system.

Please note, due to the ongoing volatile situation, future quotations across all BauderSOLAR product lines will continue to have a 60 day validity period for mounting systems and 30 days for solar modules applied.

We do appreciate the challenges this may cause, and we thank you for your continued support in these unprecedented circumstances. We would be grateful if you could share this notification with the relevant personnel within your company, and of course contact us if you have any questions.

Tom Raftery
